September 22, 2006

Qioptiq Imaging Solutions claims exemption to ROHS, as we only sell equipment in Category 9 of "Directive 2002/96/EC of the European Parliament and of the Council,"(WEEE) which states:

**9. Monitoring and Control Instruments**

*Smoke detector*

*Heating regulators*

*Thermostats*

*Measuring, weighing, or adjusting appliances for household or as laboratory equipment*

*Other monitoring and control instruments used in industrial installations(e.g. in control panels).*

ROHS Directive (2002/95 EC States:

***1. Without prejudice to article 6, this Directive shall apply to electrical and electronic equipment falling under the categories 1,2,3,4,5,6,7, and 10 set out in Annex 1A to Directive No 2002/96/EC (WEEE) and to electric light bulbs and luminaires in households.***

QIS feels that this exemption is valid as of July 1, 2006.

However, all of our electronics equipment suppliers have indicated their compliance as of July 15, 2006. Only one, however has issued a statement of compliance, and submitted bills of materials for the products which they provide QIS for QIS' due diligence. Therefore, we feel that, despite the exemption, all of our products will comply with ROHS.

All of QIS customers will be informed with a formal statement when QIS has been provided with irrefutable evidence that its suppliers conform. Until that is issued, individual electronic instruments which are purchased from QIS will have the appropriate label indicating compliance as it is established.

A handwritten signature in black ink, appearing to read 'R. Hutchison', is written over a large, faint circular watermark or stamp.

Robert J. Hutchison,  
Director of Operations  
Qioptiq Imaging Solutions
